Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1 Application Submission	Stage 2 Model Prediction & Evaluation	Stage 3 Decision & Response
Actions <i>What does the customer do?</i>	- Enters personal and financial details in the web application. - Reviews the entered information. - Submits the credit card application.	- System validates and preprocesses the input data. - ML model (XGBoost) analyzes the applicant's information. - System generates approval/rejection prediction with confidence score.	- System displays the prediction result. - User views the approval/rejection status and suggested reasons. - Option to download or save the result.
Touchpoint <i>What part of the service do they interact with?</i>	- Web Application - Input Form - Form Validation - Submit Button	- Backend API (Flask) - ML Model Service - Data Processing Module	- Result Page / Dashboard - Prediction Output - Download / Save Option
Customer Thought <i>What is the customer thinking?</i>	"I hope I have entered the details correctly." "Will my application get approved?" "I want a quick and easy process."	"I hope the system checks my details accurately." "I expect a fair and correct decision." "How accurate is this prediction?"	"Great! I got my result instantly." "If rejected, I want to know the reason." "This helps me understand my eligibility."
